

Hamukwaya NP Petrus Contribution Report

Hamukwaya NP Petrus Contribution Report

Student Details

- GitHub username: ramuntu - Repository: HamukwayaNPPetrusPortfolio - Live portfolio: <https://ramuntu.github.io/HamukwayaNPPetrusPortfolio/> - Project: SiteSpy

Contribution Area

My contribution focused on sign-in, user profile flow, and the importance of controlled access in a team project tool.

Project Context

SiteSpy is a construction support app that keeps project records, helps with wall measurements and material estimation, and prepares information for later review.

Challenge and Solution

The main challenge was presenting security-related work without exposing sensitive implementation details. The solution was a restrained access-control theme.

Learning Reflection

I gained a stronger understanding of responsible user workflows, account boundaries, and secure team collaboration.
